MySQL.com is using Oracle SSO for authentication. If you already have an Oracle Web account, click the Login link. Otherwise, you can signup for a free account by clicking the Sign Up link and following the instructions.

No thanks, just start my download.

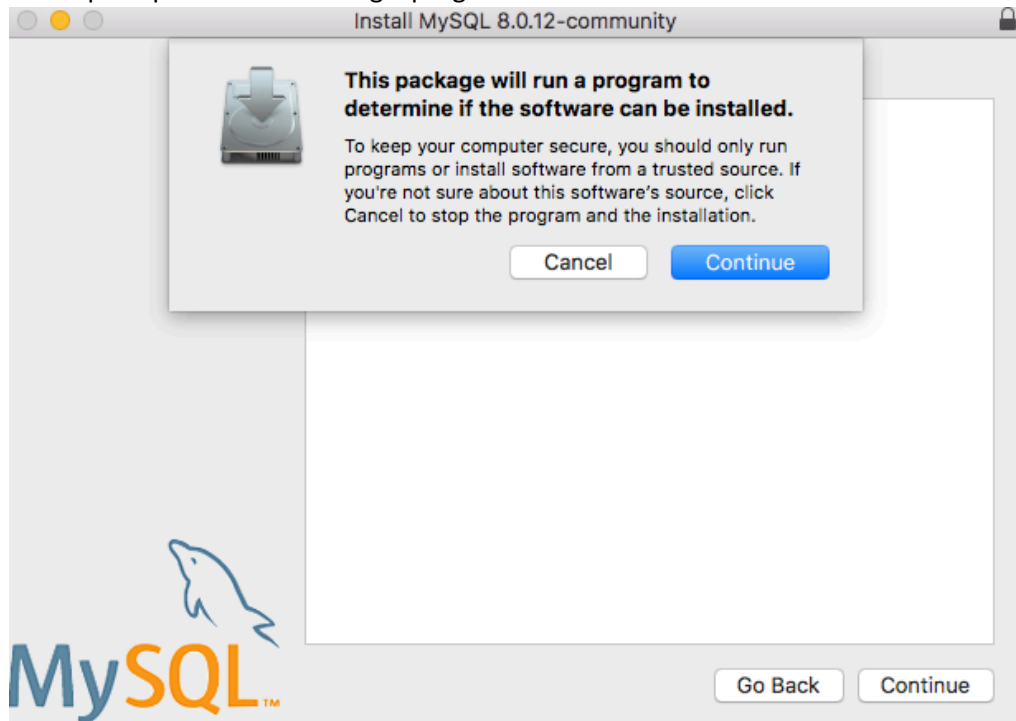

If you are using the Chrome browser the file will download in the lower left-hand corner of the screen.

Once the install file downloads you can click on it to open the install package. Then click on the install package.

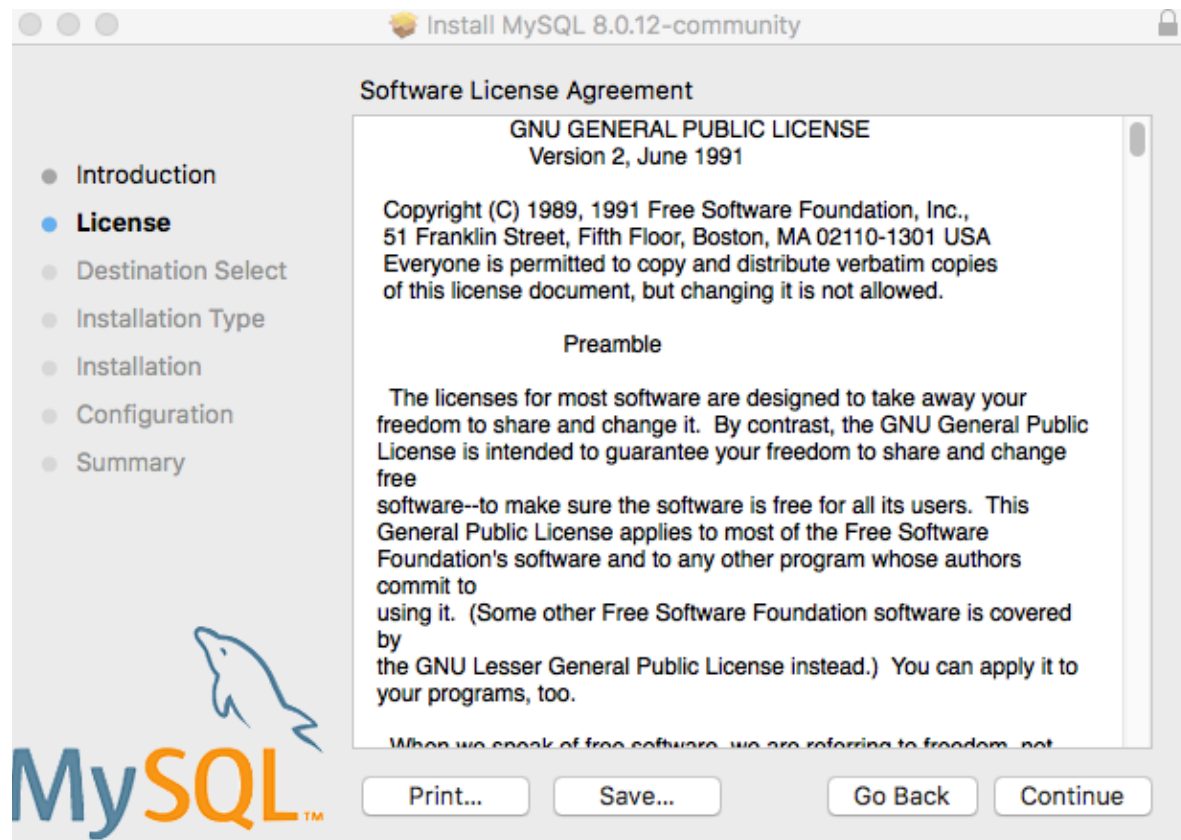

When prompted about running a program to determine if software can be installed click "Continue."

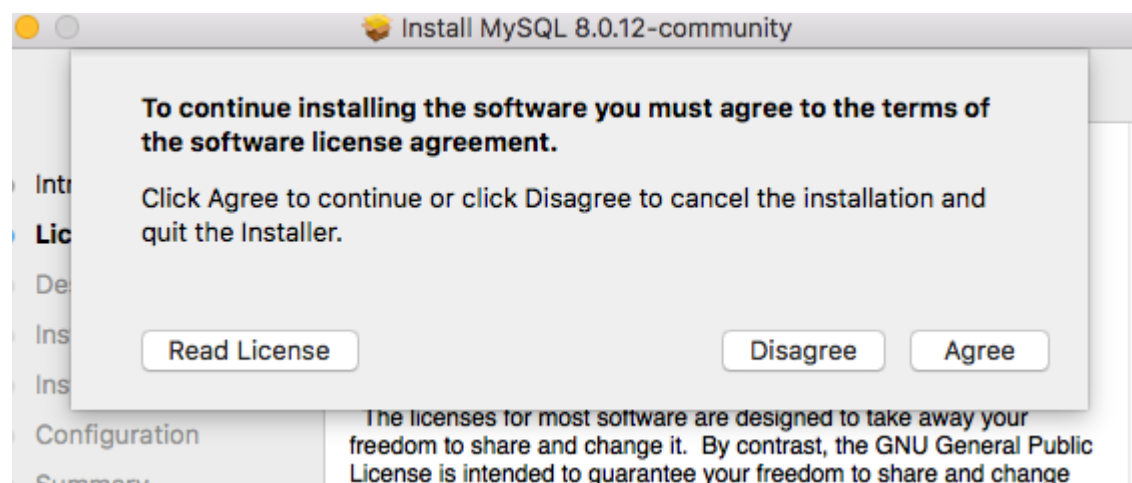

Click "Continue."

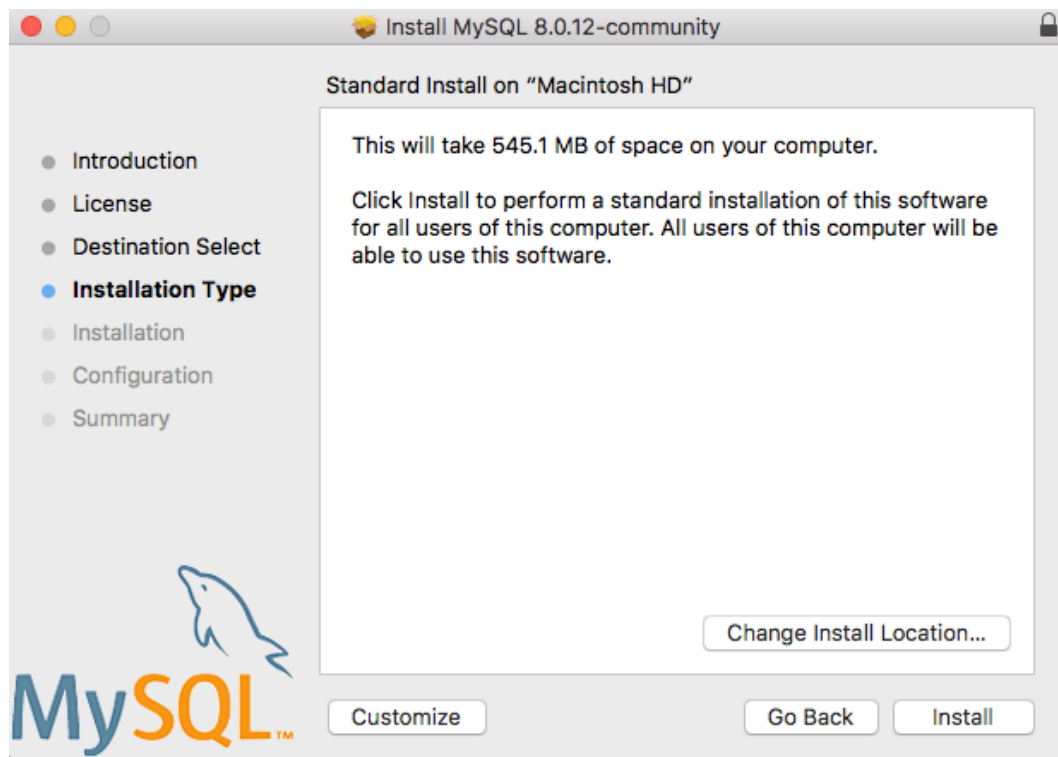

Click "Continue."

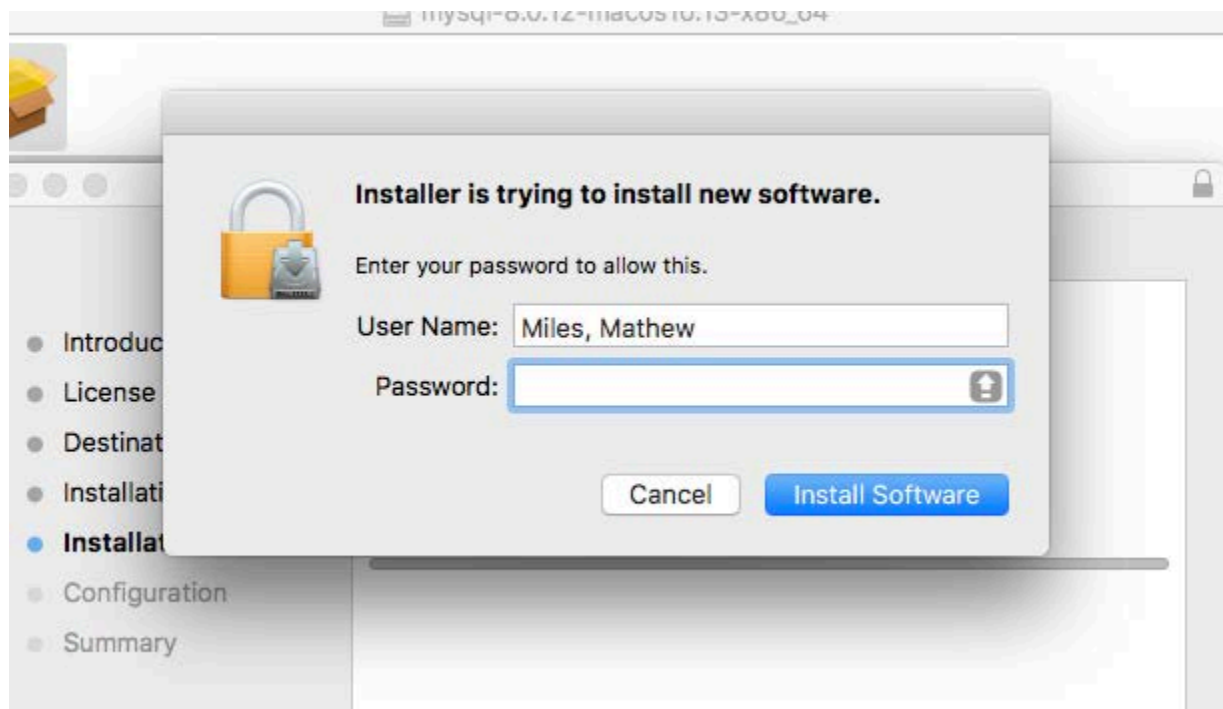

Click "Agree"

Click "Install."

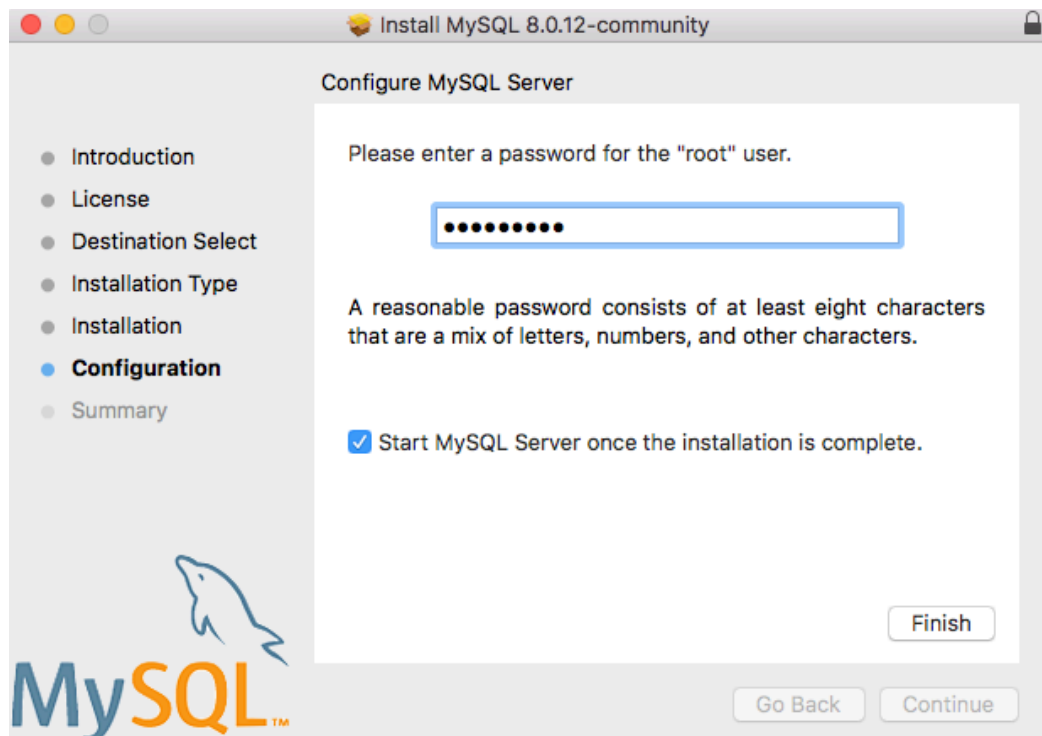

Enter your password and click "Install Software."

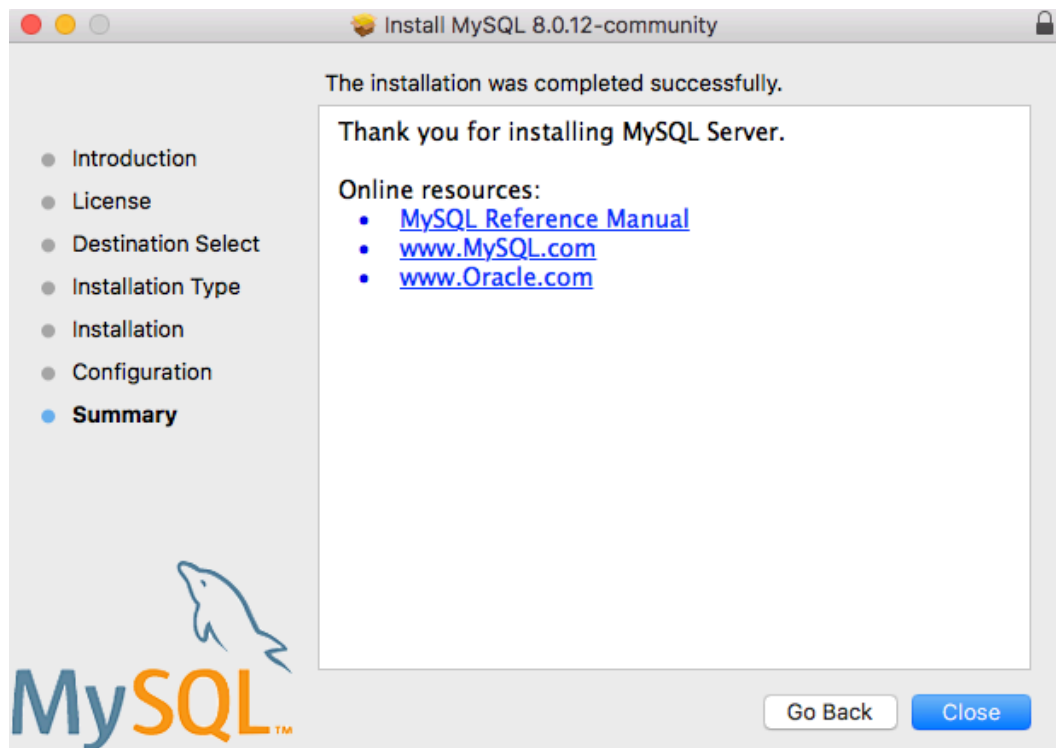

Accept the default, "Use Strong Password Encryption" and click "Next."

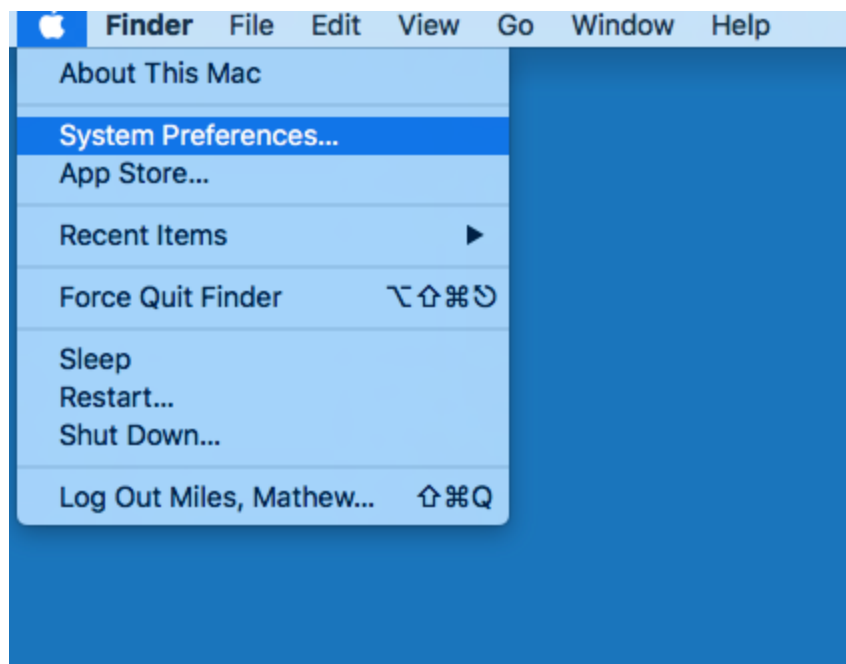

Enter a password for "root" user. It will need to be at least 8 characters long. Click "Finish."

Click "Close."

Click on the Apple Icon on the upper left-hand corner of the screen, then select "System Preferences."

Click on the “MySQL” icon.

You can see how to start and stop MySQL. You can also designate whether you want MySQL to start on computer startup.
